

Spring Shadows Elementary Dress Code

Every student is expected to wear standardized dress as determined by the Campus Improvement Team. The following guidelines for student dress are outlined in the student/parent handbook and a copy of the policy is sent home during the first week of school. Students who consistently fail to wear the expected standardized dress as determined by the Campus Improvement Team should have dress code infraction letter sent home after the third warning. If a student continues to not wear a standardized dress as determined by the Campus Improvement Team after receiving several dress code infraction letters, then the teacher should contact the school social worker and the assistant principal for further investigation into the matter.
